May 10-17, 2024

Discover paradise at LionsDive Beach Resort
and experience the ultimate dive vacation

Welcome to Curaçao!

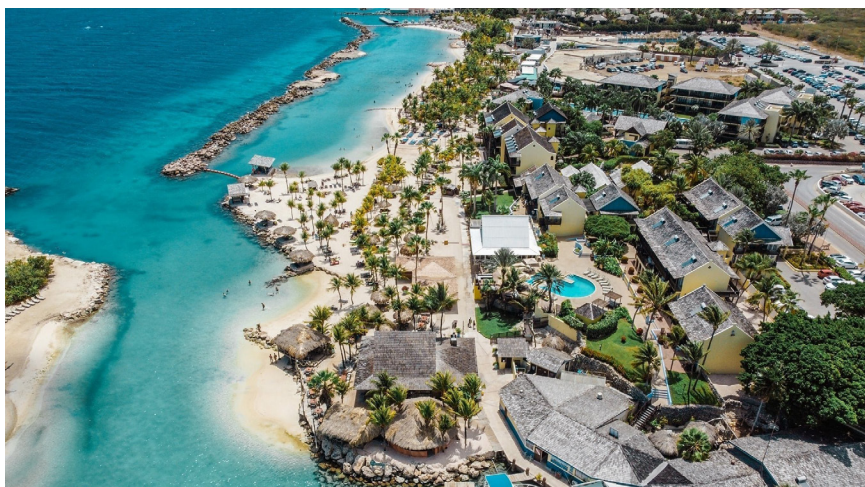

In May 2024, an incredible opportunity awaits those passionate about marine conservation and adventure. Join Seacology in Curaçao and become part of a movement that actively contributes to the preservation of our oceans. By participating in this event, you can engage in meaningful experiences, connect with like-minded individuals, and make a lasting positive impact on the environment of this fascinating Caribbean island.

Your accommodations

Nestled along the stunning shores of Curaçao, the LionsDive Beach Resort stands as an idyllic haven for both leisure seekers and passionate divers alike. This exquisite resort boasts a plethora of luxurious amenities, top-notch accommodations, and a commitment to sustainable tourism that sets it apart from the rest. At the heart of it all is the renowned 5-star dive shop, Ocean Encounters, offering a gateway to the mesmerizing underwater world of the Caribbean.

LionsDive Beach Resort offers an array of accommodations to suit every traveler's preference. From cozy and elegant rooms to spacious suites with breathtaking sea views, the resort ensures a comfortable and memorable stay.

Sustainable diving

At the heart of LionsDive's ethos lies an unwavering commitment to sustainable dive tourism. The resort offers easy access to a captivating house reef that serves as a nursery and out-planting site for Reef Renewal Curaçao, a conservation initiative dedicated to preserving and restoring the region's delicate coral ecosystems. Divers and marine enthusiasts can participate in these efforts, contributing to the protection and revitalization of Curaçao's underwater wonders. LionsDive contributes 1% of your booking fee to Reef Renewal Curaçao's ecosystem-restoration work.

Protecting Caribbean islands

For several years Seacology has worked to protect threatened island habitats and species in the neighboring Dutch Caribbean territories of Saba and Bonaire. While we do not yet have an active project in Curacao, on this expedition you will join us as we explore potential project sites.

On the island of Bonaire, we've helped save one of the world's rarest trees from extinction. A Seacology-funded barrier fence protects seedlings of the Bonaire Palm from invasive donkeys and goats, which were grazing on the young trees and preventing them from growing to maturity.

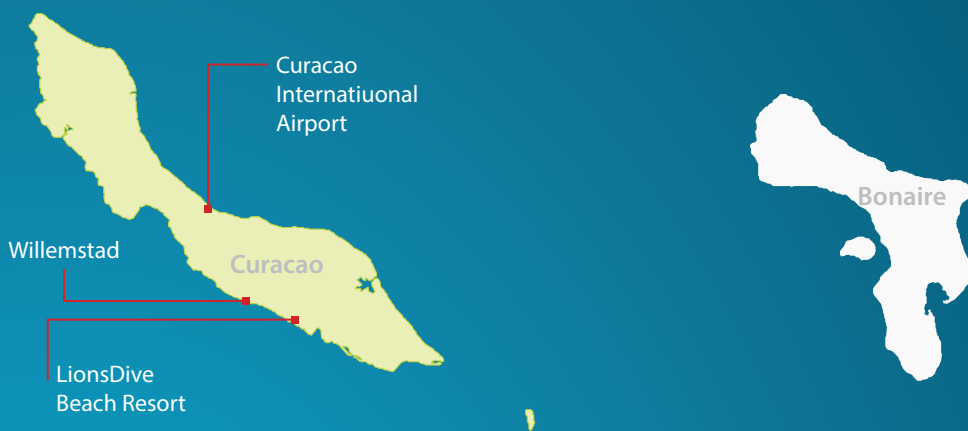

Our latest project in the region works to prevent overfishing of the Queen conch, a giant mollusk that is vitally important to the economy and culture of the island.

On remote Saba Island, northeast of Curaçao, we funded improvements to an educational center that helps connect local youth to the fascinating marine environment surrounding their island. Its importance was highlighted by a recent visit from by the Dutch Royal Family.

Dates and locations

- May 10** Transfer from airport to LionsDive Beach resort
- May 11-16** Stay at LionsDive, chartered diving each morning, visit to potential Seacology project site
- May 17** Transfer back to airport

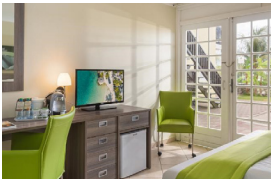

Book your spot

To reserve your spot, please contact Bryan Horne at Dive Curacao.

bryan@divecuracao.info or +5999 699 5297

Price includes seven days lodging and round-trip airport shuttle. LionsDive offers several accommodations options, subject to availability (see below). Costs per guest vary based on single/double/quad occupancy. Meals are not included. An optional breakfast package is available for an additional \$147 per guest. Guests are responsible for arranging their own flights, and trip insurance is recommended.

islands@seacology.org or +1 510 559 3505

A 50% deposit is required to hold your place, with balance due 45 days before departure.

Seacology protects ecosystems and helps communities on islands around the world by providing funds to villages for a needed civic project — such as a new school or health clinic — in exchange for the conservation of a nearby forest or coral reef.

Since 1991, Seacology has launched more than 400 projects on islands in 68 countries, protecting 1.4 million acres of marine and forest habitat.

In 2023, The Travel ranked our travel program second on its list of the top ten ecotourism providers, describing Seacology as “one of the best sustainable tour companies in the world.”
